FLEYG®

HOW DOES FLEYG WORK

Steel road plates are indispensable for road construction to guide vehicles, bicycles and pedestrians safely over obstacles on construction sites.

Up to now, steel plates were mostly built by filling up concrete ramps. This is time-consuming and expensive. In addition, the steel plates built in this way cause considerable noise when crossing.

THE SOLUTION IS FLEYG

The FLEYG-Ramp is mainly made of rubber. The noise dampening effect is already integrated into the material. FLEYG is water-repellent and non-slip. With the reflective markings it is also more visible.

BENEFITS OF FLEYG

Quick and easy to lay

Can be reused

Cost-saving compared to ramps made using a coating

Highly visible thanks to reflective markings

Safe for all road users

FLEYG is a Europe-wide patented product from FLEYG AG

FLEYG®

SAFE – CONSISTENT – LOW COST

Asphalt

FLEYG

Price

Per Use
EUR 50.00 – 60.00 / m¹

Can be used again and again
EUR 190.00 – 210.00 / m¹
Acquisition costs are recouped after
just five uses

Usability

- Only once
- 200 times and more
- 100 % Recycling Material

Gradient

- 17 – 30 %
- 8 %

Safety

- Trip hazard for pedestrians and cyclists
- Not easily visible to all road users
- Reflectors ensure safety
- No tripping
- Increased slip resistance
- Easy to lay

FLEYG®

DATA SHEET

Type	FLEYG 100 / FLEYG 75 / FLEYG 25 Corner
Material	Recycled rubber specially designed and created in-house with tensile/pressure-bearing properties
Surface	<ul style="list-style-type: none">• Water-repellent with pearl texture• Non-slip light reflectors
Patent	FLEYG AG, Bäumleingasse 22, 4051 Basel
Technical Details	FLEYG 1000 x 400 x 42 mm / 12 kg FLEYG 750 x 400 x 42 mm / 9 kg FLEYG 250 x 250 x 42 mm / 9 kg
